### **DETAILED ACTION**

The response filed on 1/09/2004 under 37 CFR 1.116 in reply to the final rejection has been considered and made of record.

Applicants' amendment to claim 1 and cancellation of non-elected claims 14-30 is acknowledged.

Claims 1-13 are now pending.

Upon further consideration, the finality of the previous office action is withdrawn and the following rejections are applied.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Following reasons apply. Any claim not specifically rejected is rejected as being dependent on a rejected claim

1. Recitation of the phrase "or stereoisomers, or pharmaceutically acceptable salts, esters or amides thereof" in claims 1-4 render these claims indefinite as it is not clear whether these claims are composition claims or compound claim. Note the Markush choices are in plurals.
2. Recitation of aldehyde, ketone, acid ester, urea, nitrile, amine, amide etc. as is or part of alkyl group as recited in claim 1, definition of L, R<sub>1</sub> and R<sub>2</sub> renders the claim indefinite as the said entities are generic compounds and not functional

groups. In addition, it is not clear what is the difference between these entities embraced in these definitions and that recited in the Markush choices.

***Allowable Subject Matter***

Claims 11-13 are allowable barring uncovering of any new prior art in a subsequent search. Said claims are deemed allowable as the specific species embraced in these claims are not taught in the prior art of record.
